## MIDDLE FORK AMERICAN

1 day trips, 16 miles, Class IV, May thru September

Plus 2 day South Fork/ Middle Fork Combination trips

A deep forested canyon, wilderness camping, crystal clear water and some of the wildest runnable rapids in California. All of this and more can be found on the Middle Fork American. While some of the river is a relaxing but spirited Class II float, there are numerous Class III and IV rapids for whitewater excitement and thrills.

The highlight of every Middle Fork trip is the famous Tunnel Chute, a narrow Class IV cataract created by 19th century gold miners. Immediately following the 'Chute' is the 'Tunnel, a 90' long cavern blasted through a rocky ridge. Those early gold miners created Tunnel Chute to divert the river and dry up the ancient river bed to make the gold easier to find. Little did they know at the time that they created the most exciting whitewater rapid in California.

After the Chute, rapid excitement continues for several miles and then mellows until we reach Ruck-A-Chucky Falls, a necessary portage. Our trip down the beautiful Middle Fork comes to a dramatic conclusion with another series of thundering Class III-IV drops.

Note: the minimum age to raft the Middle Fork is 14 years old.
