remain at our South Fork base camp. Because gear is never carried on the rafts you are welcome to bring as much as you feel you need. **EXCEPTION:** On 2 day wilderness Middle Fork trips your gear will be trucked by 4-wheel drive into the overnight camp and space on the truck is extremely limited. Because of this, you must pack very light and compact, only bringing essentials. If you are booked on this trip, additional information will be enclosed.

**WEATHER:** During the Summer months you can expect warm, sunny days with temperatures from the 80's to the low 100's. Evenings can cool to the low 50's. While rain is not expected it is always a possibility anytime during the year. During the Spring we can normally expect higher water flows and cooler air temperatures so pack accordingly.

**CAMERAS:** Cameras are OK to bring but we do not recommend taking them on the rafts unless they are a waterproof type. Inexpensive one-time use waterproof cameras are best and we have these available at our camp store. You will have the opportunity to purchase a photograph, taken by a professional photographer, of you running the biggest rapids.
